POLICY STATEMENT

Selection of the magazines indexed in the READERS' GUIDE TO PERIODICAL LITERATURE is made by the subscribers to the Index. This is done only at intervals of several years by means of voting lists supervised by the Committee on Wilson Indexes, appointed by the Reference Services Division of the American Library Association. In casting their votes the subscribers are governed by the general policy statement which they first endorsed in 1953 and reaffirmed in 1960 and 1967. This statement reads as follows: "THE READERS' GUIDE will continue to index U.S. periodicals of broad, general and popular character. It will also aim to provide a well-balanced selection of U.S. popular, non-technical magazines representing all the important scientific, technical and subject fields." In addition the subscribers are asked to cast their votes carefully and objectively, with primary emphasis on the reference value of the periodicals upon which they are voting. They are also urged to give serious consideration to the maintenance of a good subject balance so that no important field will be overlooked and none will be too heavily indexed.

RG 3/69-2/70

SUGGESTIONS FOR THE USE OF THE READERS' GUIDE TO PERIODICAL LITERATURE

Arrangement

Authors and subjects are arranged in one alphabet. Under authors and subjects, titles are arranged also in alphabetical order by the first word, initial articles being disregarded. Under personal names titles *by* author precede those *about* him. Subdivisions of a subject are arranged alphabetically under the subject. Geographical subheads follow the other subdivisions in a separate alphabet.

Cross References

See references are made from various forms of personal names and subject headings to the most generally accepted forms appearing in the first issue, after made, and thereafter in but one quarterly issue, until the annual volume. They are also made from titles of dramas, operas, and stories to names of authors and composers.

See also references are made from a subject to related subjects under which additional material may be found.

Dramas

Dramas are indexed under the dramatist's name with a *see* reference from the title of the drama; titles are also listed under the heading—Dramas—Criticisms, plots, etc.—Single works.

Fiction

Novels and short stories are indexed under the author's name with a *see* reference from the title to the author. Subject entries are made for selected types of fiction, e.g. Historical fiction; Christmas stories; etc.

Moving Pictures

Moving picture plays are indexed only under the headings Moving picture plays—Criticisms, plots, etc.—Single works, or Moving pictures—Documentary films—Criticisms, plots, etc. No title references are made.

Musical comedies, revues, etc.

Musical comedies, revues, etc. are indexed under the heading Musical comedies, revues, etc.—Criticisms, plots, etc. with a *see* reference from the title of the work.

Operas, Operettas

Operas, Operettas are indexed under the composer's name with a *see* reference from the title of the opera or operetta; titles are also listed under the headings Operas—Criticisms, plots, etc., or Operettas—Criticisms, plots, etc.

Sample entry:

CAMPING
Cast loose all cares. E. S. Gardner. il Motor B 123:267+ Ja '69

Explanation:

An illustrated article on the subject CAMPING entitled "Cast loose all cares," by E. S. Gardner, will be found in volume 123 of Motor Boating, page 267 (continued on later pages of the same issue) the January 1969 number
